PRODUCTION LINES

Since the beginning of our company, we have desired to become a major manufacturer in this segment. To achieve that goal, we made sure to create and build our company on strong foundational values and principles:

Quality

Customer focus

Continuous improvement

One of the oldest seasonings in the entire world, salt is used by everyone around the globe. Gladly, we produce the amazing and genuine Egyptian salt from Siwa, Sinai & Alexandria. The taste of our product is divine. You can get guaranteed high-quality salt in sizes that fit better in your business. We offer multiple types of salt across various categories and crystals sizes. All those types are produced with high-quality raw salt crystals.

POOL SALT

Everybody likes jumping into a cool fresh pool on a hot summer day. But what's more important is whether it is healthy and hygienic or not. There are various available chemicals in the market to disinfect pools. However, these chemicals might be hazardous for human health.

In this case, you may benefit from healthy and natural alternatives to make your pool safe and clean such as natural salt.

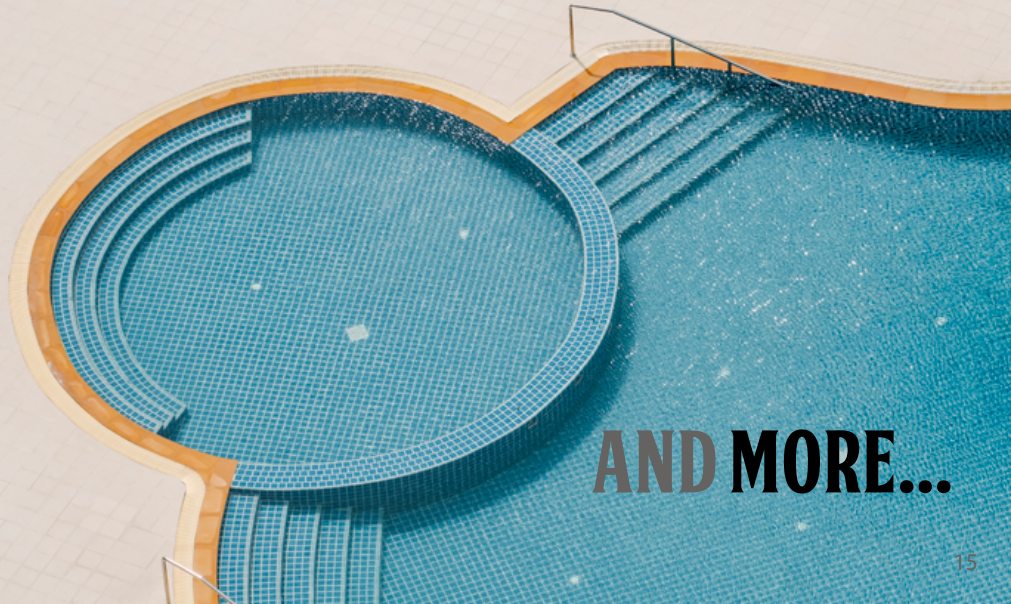

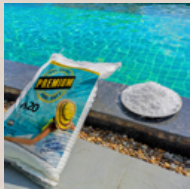

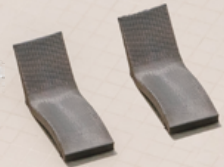

Pool salt consists of two elements: sodium and chlorine. When pool salt is added to a pool, it dissolves into sodium ions and chloride ions. This chemical reaction causes the free chlorine ions to convert into hypochlorite acid. Hypochlorite acid has much less odor compared to chlorine tablets.

CUSTOM BRAND LABELING AND PACKAGING AVAILABLE

*All private labels are subject to printing costs that will need to be settled before confirming your order.

1. Contact us via our various sources of communication to make your order. During our negotiation, we will talk about:
-The type of salt you require
-After confirming your choice we will negotiate the price

2. We will collect all the required information and send you an initial invoice. You can check the details and when they're to your liking, you will need to make the initial money transfer from your bank to our account.

3. The time to complete manufacturing of your order will depend upon the amount of product you require and our manufacturing capacity, which is 250MT/day salt production.

4. After manufacturing is complete, we will send shipping containers to Egyptian port. Also, we'll send you a copy of the documents so you can confirm the rest of the shipping

details and make rest of the money transfer to our bank account. After payment we will ship original documents to your address.

5. Delivery times depend upon distance from destination port. You can collect your shipment from your port using these documents. We'll call you for after sales survey of our products to ensure quality standards and expectations.
